1	great professor
2	Professor Ortiz is a nice professor. The class is quite useless though. The only real determinant of inequality is poor vs. rich. Truth be told, the class undermines nuances between poor people, deriving from the assumption that all poor people are African-American, and all rich people are White. A very racist approach to attempt to solve racial issues. Although a majority of the facts are true, it caters to liberal and "new left" policy that is based on indoctrination. This is education, please do not inject your personal beliefs or opinions into the course. Give us the stats, we as individuals will decide a solution and or beliefs.
3	One of my favorite classes and professors
4	I enjoyed this class. I didnt think I would enjoy it as much as I did. I learned a lot about the school systems and how unequal and unfair they can be. Dr. Ortiz was very well knowlegable on his topics and it was easy to listen to his lectures. The only thing I would say is to make the slide shows more intersting so kids actually pay attention to them.
