1	This professor does not respond to his email, and I asked for help multiple times on part 1 of our final assignment and he didn't give helpful feedback, I had to ask another professor for help even though it wasn't her class.
2	The class forced us to think critically and was very organized. It gave all students an opportunity to succeed.
3	No guidelines for assignments, lack of materials on Brightspace, but a nice person and wants the best for his students
4	Lack of materials (none) on bright space Class was very disorganized and we had no idea what was going on each day and what it had to do with anything. No guidelines or example for assignments Really nice guy though
5	Jose, while a nice person, lacked in providing feedback and support at times, and was not easy to reach. However, he was flexible with deadlines when students were struggling which is nice.
6	Jose is a very nice guy. I do feel his class was very bland and boring it was the same lecture style everytime. However, I knew when everything was due based on the class sheet. Also, he is very flexible with due dates and does listen to us if we ask him something.
7	I have no idea what this class was about. I attended class every day, and did not learn anything. This was a very frustrating class to attend. Assignments were unclear in Brightspace. It was very difficult to pay attention during lectures because they were so random. He would also pick and choose when he would respond promptly to an email. Sometimes weeks would go by without a response, other times it would be almost immediate.
